

Main Pages

- Navigate to:

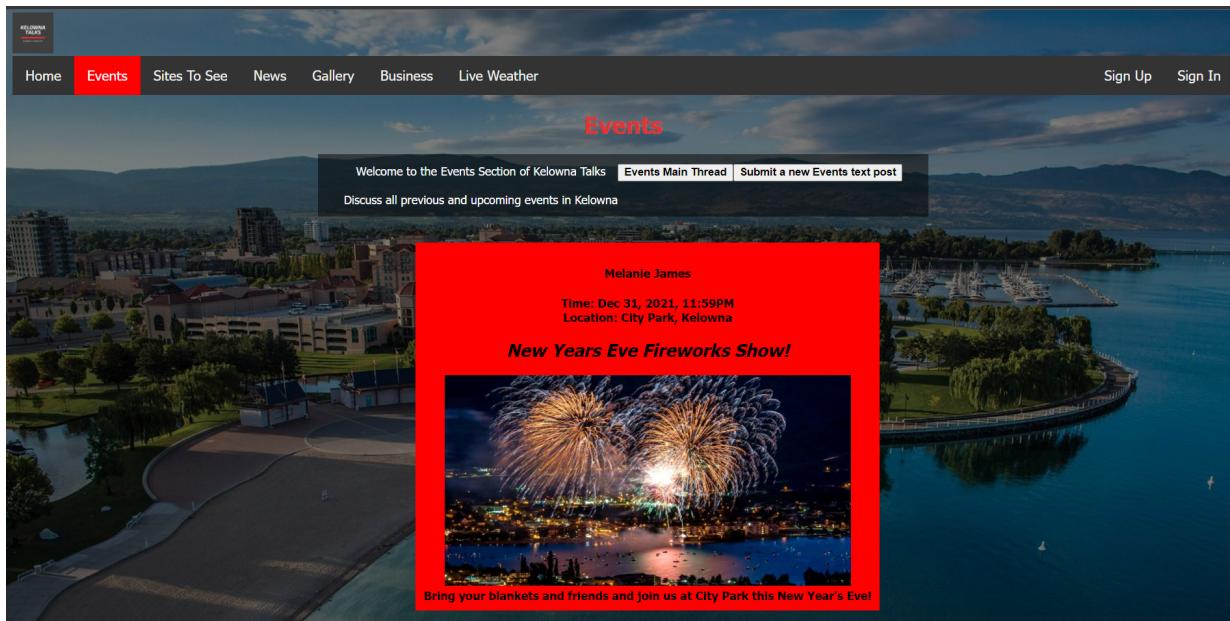

http://cosc360.ok.ubc.ca/akuckian/the-project-varun-idean-and-aanchal/guest_homepage.html

- This is the signed-out homepage for KelownaTalks. The top of the homepage contains a nav bar that includes links to different forum pages, statics pages, live pages and the Sign-Up and Sign-In features for the website.

/guest_homepage.html

- The forum pages are Events, Sites to See, News and Business. These pages are where all users can see a sample admin post and access posts regarding that subsection by clicking the “See Thread” button. Registered and logged in users can create new posts for that page by using the “Submit Post” buttons. /events.html

Posted on Dec 2, 2021

View of Okanagan Lake

I snapped this picture while hiking this morning, jaw-dropping!

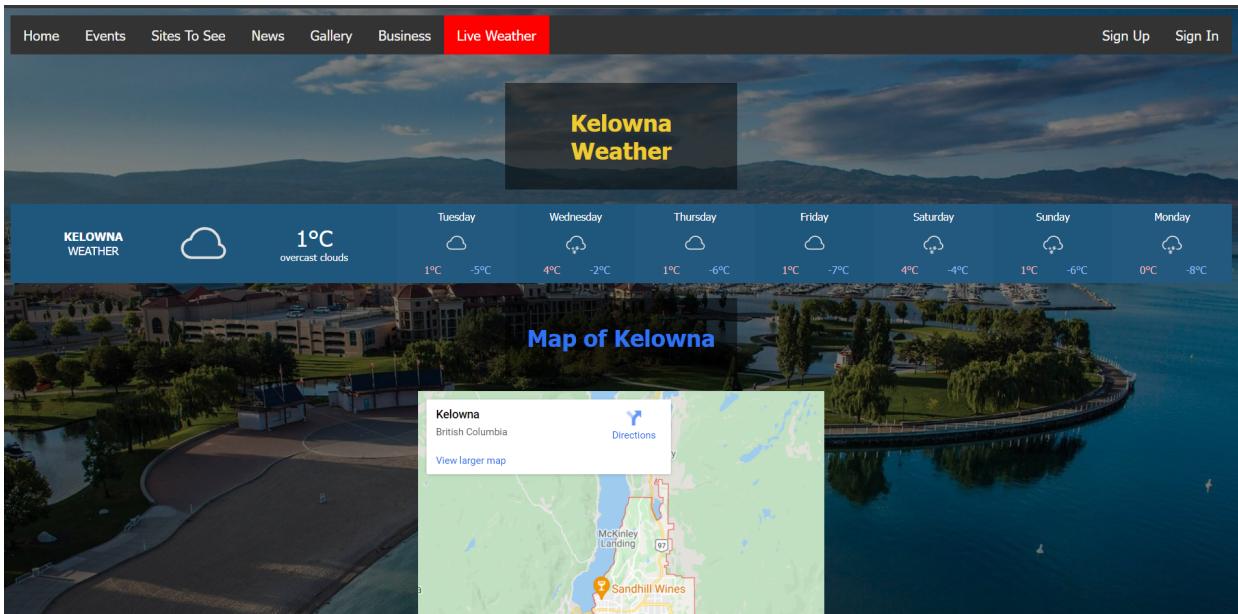

/business.html

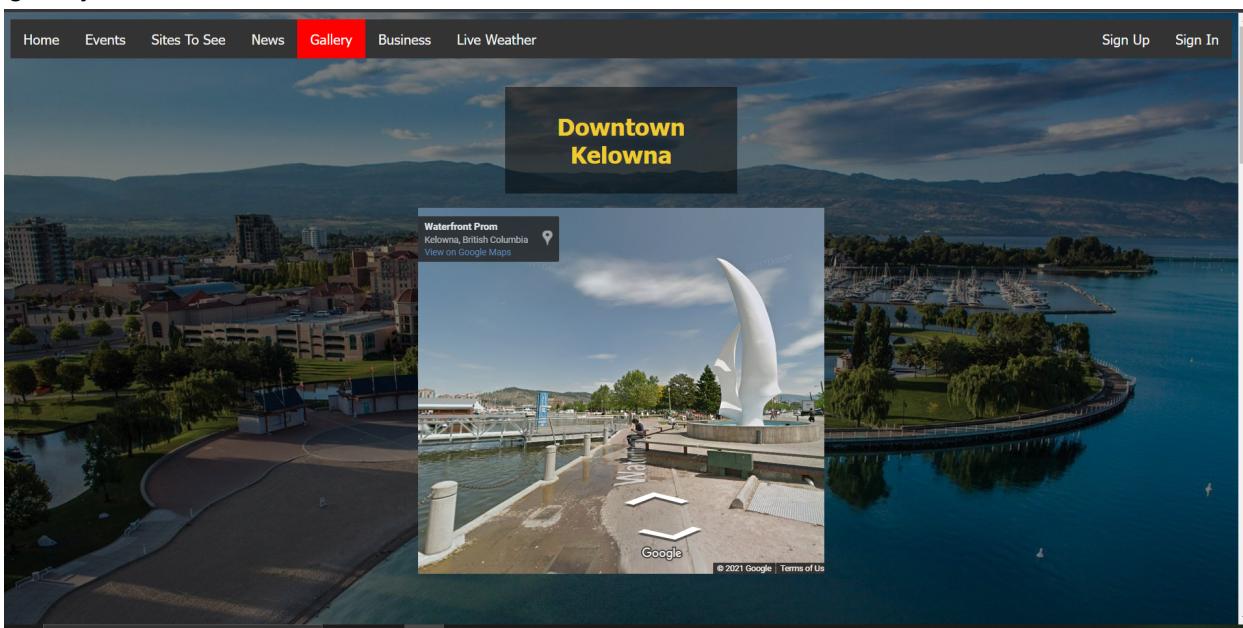

Live Pages

- The current live pages are Gallery and Live Weather. The live pages are where all users can look at weather updates and images of Kelowna made using Google and weather widget-io API.

/liveweather.html

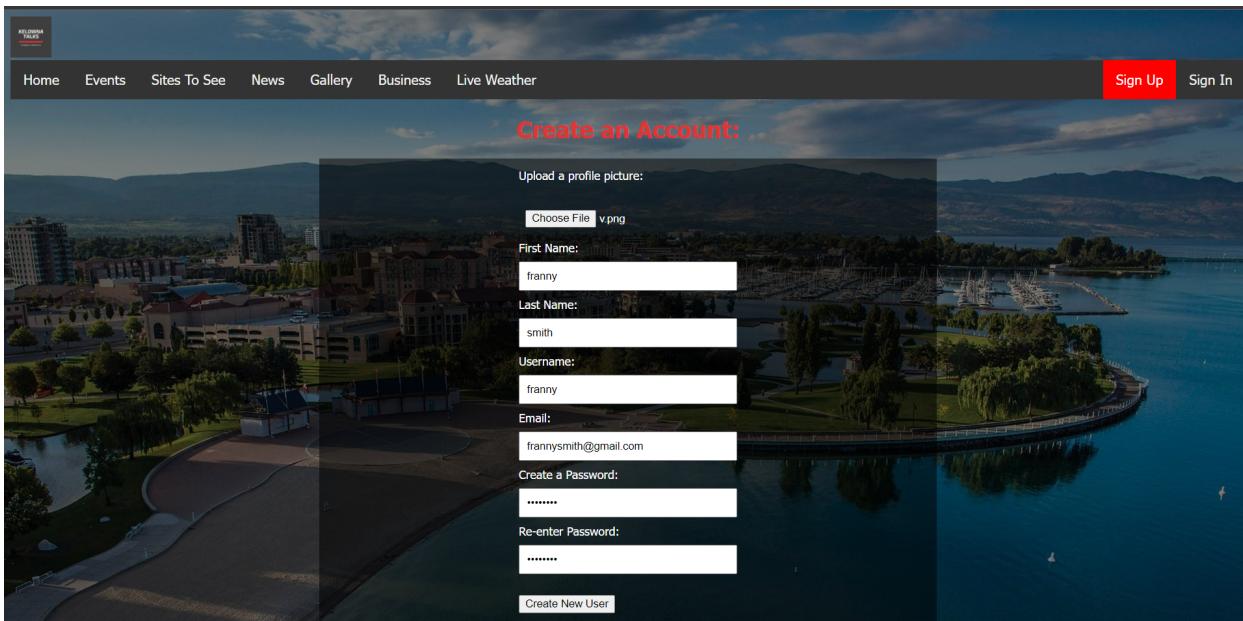

/gallery.html

Sign Up/Sign In

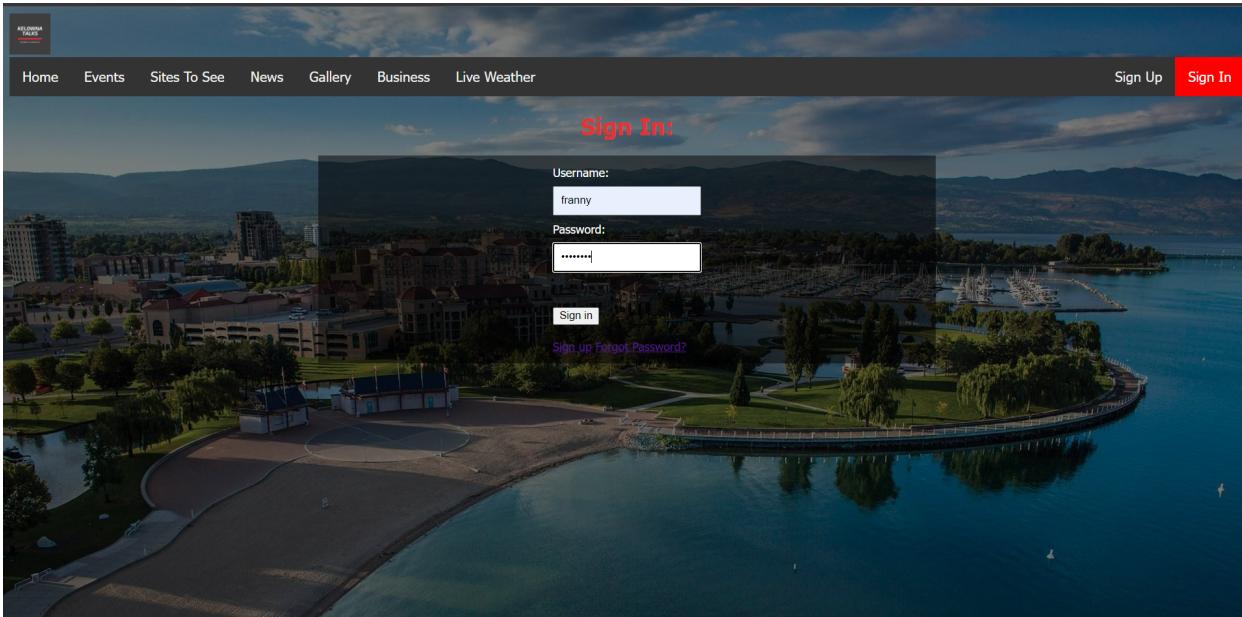

- The Sign-Up and Sign In buttons redirect the users to their respective HTML pages.

/signup.html

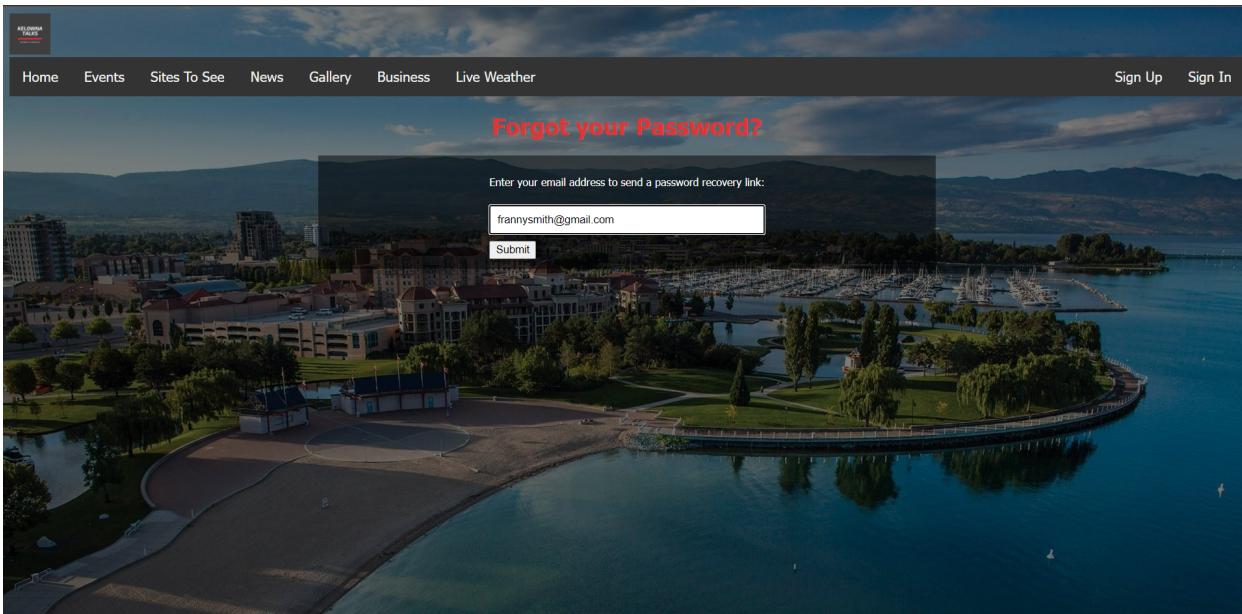

- The Sign In page has link to a Sign Up hyperlink incase the user has not signed up yet which would redirect them back to signup.html. It also includes the link to Forgot password incase the user has forgot their password which would redirect them to forgotPassword.html

/signin.html

- The forget password page includes a textbox where the user can submit their email address and a recovery password will be sent to them.

/forgotPassword.html

- Alert given after successful password recovery

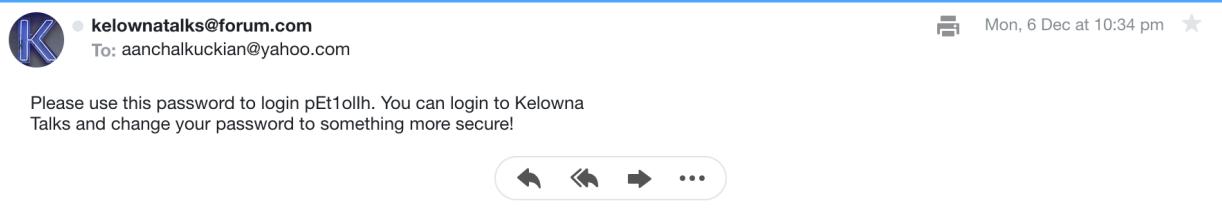

Your Password has been sent to your email id

[Log In with recovered password](#)

- Email given after successful password recovery

Logged In

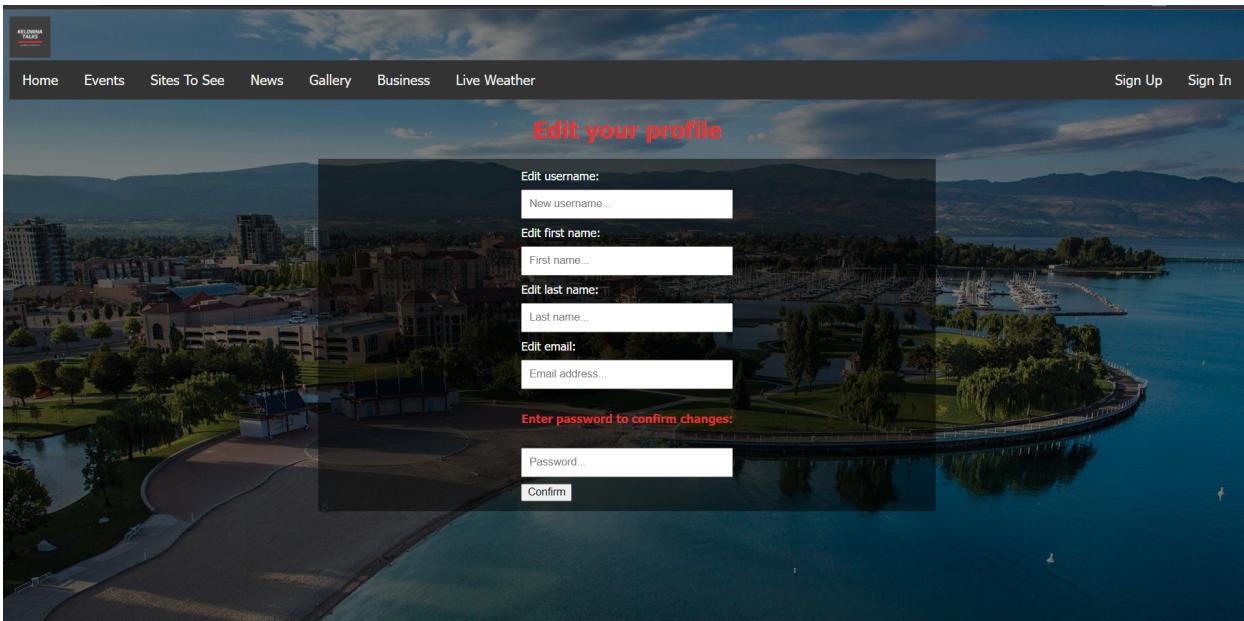

- Once the user has logged in they will be able to access index.html. This is the homepage for signed-in users where they will be able to access parts of the website not available to signed-out users. These are available on the top right and each of them redirects to their respective HTML pages.

/index.html

- Clicking the Edit Profile takes the user to editProfile.html which contains multiple text fields for the user to input their new account credentials. The user will need to confirm the changes by entering their current password.

/editProfile.html

- Selecting the logout button deletes the user session and logs the user out

You have been logged out!
